

# 4G PARAS

## GPS & DIGITAL SOS ALARM

A completely digital and integrated personal emergency alarm system equipped with GPS for tracking SOS requests and fall notifications. It includes round-the-clock monitoring through our fully certified Monitoring Response Centre.

- ✓ Fall Detection
- ✓ SOS Alarm
- ✓ 24/7 Monitoring Centre
- ✓ Live GPS Tracking via App
- ✓ Magnetic Charge
- ✓ Heart Rate Detection
- ✓ Step Counter
- ✓ Digital Switchover Ready

### Tracking

This platform is optimised for desktop, tablet, and smartphones (IOS/Android), enabling tracking of the end-user along with the reception of SOS, fall detection, and tailored alerts. Including push and email notifications.

### Management

Overseen by a UK-based monitoring centre, our service provides a custom platform for management and caregivers to perform check-ins, receive updates, and obtain the most recent known location of their end-users.

### Monitoring

Connected with a UK 24/7 Monitoring Response Centre, providing immediate communication and assistance to the end-user during emergencies, ensuring proper assessment and management of the situation.

## Digital Switchover

The digital switchover is coming in 2025 and will mean that all devices that rely upon analogue landline services will be affected. All FLP Monitoring Solutions come Fully Digital Switchover Ready as standard and will not be affected by the switchover. We serve both individual consumers and business clients. For additional details, feel free to reach out to us.
